For Immediate Release

RRSAT APPOINTED BY INMARSAT AS DISTRIBUTION PARTNER FOR ITS GLOBAL SATELLITE PHONE SERVICES (GSPS)

RE'EM – May 3, 2010 –Station 711-, the mobile satellite arm of **RRsat Global Communications Network Ltd. (NASDAQ: RRST)**, an innovative flexible and fast growing mobile satellite communications provider, has been appointed by Inmarsat as a distribution partner for its Global Satellite Phone Services (GSPS).

Station 711 is cooperating with Inmarsat to launch the first product in the GSPS family, which is IsatPhone Pro, a global handheld satellite phone. IsatPhone Pro will offer satellite telephony, voicemail, text and email messaging, and the ability to look up and text location data.

Station 711 is expected to offer IsatPhone Pro in the second half of 2010. IsatPhone Pro is aimed at customers based in remote areas requiring a reliable and rapidly-deployable global handheld phone for safety, improved on-site coordination, or contact with headquarter offices. Typical users are expected to be government and military customers, journalists, NGO workers and remote-based employees of mining or oil & gas companies.

IsatPhone Pro will join the existing Station 711 Inmarsat 3rd and 4th generation portfolio of maritime, land and aero services. Inmarsat's satellite infrastructure combined with Station711's innovative added-value platform provides its customers with the most advance satellite communication services available today.

"We are very happy to join the small group of companies which are appointed by Inmarsat as distribution partners for its GSPS Services. This nomination enables us to enlarge our product and service portfolio, while better serving our growing customer base. We look forward to bringing to the market innovative value added services in this sector, as we do in other markets," commented Zvika Nave, Senior Director at RRsat.

"RRsat and Station 711 have good insight and experience in a number of the target markets for IsatPhone Pro, and we are excited to welcome them as the latest partner to add the new service to their portfolio," said Helen Stalker, Commercial Director for Global Satellite Phone Services at Inmarsat.

About RRsat Global Communications Network Ltd.

RRsat Global Communications Network Ltd. (NASDAQ: RRSAT) provides global, comprehensive, content management and distribution services to the rapidly expanding television and radio broadcasting industries, and communications solutions to the maritime, terrestrial and aviation markets through Station711, its mobile satellite arm. Through its proprietary "RRsat Global Network," composed of satellite and terrestrial fiber optic transmission capacity and the public Internet, RRsat is able to offer high-quality and flexible global distribution services for content providers. RRsat's comprehensive content management services include producing and playing out TV content as well as providing satellite newsgathering services (SNG). RRsat concurrently provide these services to more than 545 television and radio channels, covering more than 150 countries. Station 711 offers a flexible communications platform that allows the integration of advanced satellite communications technology into existing infrastructures, resulting in significant savings of costs and resources. As Inmarsat's 4th generation distribution partner, Station 711 provides for existing and evolved Inmarsat services using its own Land Earth Station , and RRsat's global satellite and fiber optics network, Station 711 guarantees seamless global communications anywhere, anytime.
